

106-400GSM
GSM 400

PRODUCT DETAILS

- Organizes serial port barcode scanners with plug-and-play simplicity
- Four (4) numbered serial ports on the side
- Plug a scanner in and that scanner is assigned to the corresponding numbered interface on the Global 400mp
- Plugging in and unplugging additional scanners as no impact on scanners already plugged in and assigned to an interface
- Scanners remain paired with that interface until you change them
- Fast, simple, reliable
- Our wireless error-proofing systems are designed for control and eliminating inadvertent changes that can be made out on the shop floor or in an assembly cell
- Operate as a standalone, mini-MES system
- Can also be linked together in their own network away from the MES
- Flexibility is as simple as using a bar-code scanner
- Simply scan a job, and parameters and the Global 400 has the P-Set information needed to organize tools, groups, jobs, parameters, and operators to get the job done right and document everything
- PLEASE NOTE: See below for manuals & details drawings; click the drop down menu, click on specific product PDF, click the download button
